Course: MATH 1552 004 - Adili

Student

fantastic class.

Student

Professor Adili was a phenomenal math teacher and although he gave out a lot of quizzes I believe they helped prepare me for the test.

Student

Probably my favorite math teacher I've had. He makes the information clear and easy to understand and cares deeply about his students success. I feel like I've truly learned the material and I would take him again if it was possible.

Student

This is a fabulous instructor. This class pushed me to be more thorough in reasoning and more careful; in my mathematics. This professor taught the class fantastically and really cared for the students; he gave us information on the exams afterward and helped us however he could. My mistakes in this class helped me learn to think more critically since this is a major part of the course itself.
